Neutrog Bounce Back and Rapid Raiser

are 100% organic, fertilisers with a consistent analysis, and come in an easy to spread pelletised form.

Neutrog fertilisers provide the catalyst for promoting healthy growth by stimulating the natural processes that occur in the soil. Both soil conditioning and fertilising benefits result from their use.

The physical effects of Neutrog on the soil are perhaps more important than the direct fertiliser effects. Poor soil structure inhibits root growth, reducing the ability of a plant to reach much needed nutrients.

Neutrog's products promote the aggregation of soil particles, so the structure and tilth is significantly improved. Roots, air and water can move easily through the soil. In sandy soils, organic matter holds water and

nutrients which minimizes leaching.

Neutrog products have been used with great success with Protea, Rooibos and Buchu farmers.

The benefits for the farming of indigenous plants are:

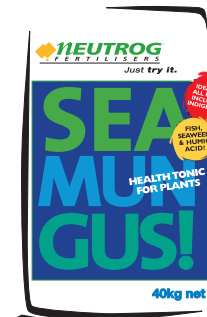

- Helps unlock "tied up" nutrients
- Controlled nutrient release
- Retains moisture and nutrients in sandy soil
- Excellent source of organic matter
- Acts as a pH buffer
- Improves soil structure
- Encourages earthworm and soil microbial structure
- Reduces leaching
- Increased root development
- Introduces a full balanced range of nutrients

Available in Pellet Form in 40kg bags, 500kg bags

Available in Pellet Form in 40kg bags, 500kg bags

Rapid Raiser

Approx. Analysis (dry weight basis)%W/W	
Moisture	130g/kg
Nitrogen	N 30g/kg
Phosphorous	P 30g/kg
Potassium	K 30g/kg
Calcium	Ca 60g/kg
Sulphur	S 5g/kg
Magnesium	Mg 7g/kg
Zinc	Zn 480mg/kg
Manganese	Mn 500mg/kg
Iron	Fe 4000mg/kg
Copper	Cu 65mg/kg
Product Density	650kg/m ³
Organic Matter	650kg/

Based on Poultry Manure.

Fertiliser Group 2 Reg. No. B3432 Act 36 of 1947

Bounce Back

Approx. Analysis (dry weight basis) %W/W	
Moisture	130g/kg
Nitrogen	N 30g/kg
Phosphorous	P 15g/kg
Potassium	K 21g/kg
Calcium	Ca 22g/kg
Sulphur	S 3.7g/kg
Magnesium	Mg 4.5g/kg
Zinc	Zn 235mg/kg
Manganese	Mn 370mg/kg
Copper	Cu 30mg/kg
Iron	Fe 1255mg/kg
Product Density	650kg/m ³
Organic Matter	650kg/m ³

Based on Poultry Manure.

Fertiliser Group 2 Reg. No. B2889 Act 36 of 1947

Seamungus

Nitrogen	N	36g/kg
Phosphorus	P	14g/kg
Potassium	K	24g/kg
Sulphur	S	4.9g/kg
Calcium	Ca	40g/kg
Magnesium	Mg	6.7g/kg
Iron	Fe	1030mg/kg
Manganese	Mn	460mg/kg
Zinc	Zn	315mg/kg
Copper	Cu	60mg/kg
Boron	B	45mg/kg
Molybdenum	Mo	5060mg/kg
Carbon	C	50.30%
Humic Acid		40g/kg
Fulvic Acid		29g/kg

Fertiliser Group 2 Reg. No. B3842 Act 36 of 1947

Application rates

Rooibos:

New planting / Established

Apply at 150kg - 300kg per hectare

Buchu / Protea / Indigenous:

Apply 500kg per hectare - Autumn

Apply 500kg per hectare - Spring

Choice of product will

depend on your soil fertility status - please contact us with queries.
