NEUTROG
FERTILISERS
The Experts' Choice.

Viticulture

Neutrog Bounce Back and Rapid Raiser are 100% organic, balanced fertilisers with a consistent analysis, and come in an easy to spread pelletised form.

These products have been tried and proven against raw manures over many years. They are ideally suited to give a head start to new vine plantings,

or for established vines to accentuate sustained crop growth and fruit quality.

They are also widely used for cover crops.

Neutrog is an ideal alternative to raw manure, and offers many distinct advantages:

Why waste money on raw manure?

	Raw Manure	Neutrog
Cost effective	7	3
Controlled nutrient release	7	3
Uniform nutrient application	7	3
Available when required	7	3
Easy to handle and spread	7	3
No pathogens, parasites or weed seeds	7	3
Safe. Composted & steam treated	7	3
Nutrients immediately available	7	3
Reduced dust	7	3
Certified Organic	7	3

Application rates

New Vines

Apply Rapid Raiser directly into the rip line at 1000kg – 1200kgs per hectare.

Established Vines

Up to 3 yrs old:

Broadcast or band Rapid Raiser at 1000kg-1200kgs per hectare.

Over 3 yrs old:

Broadcast or band Bounce Back at 1000kg-1200kgs per hectare

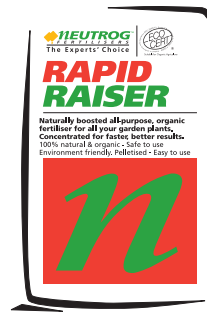

Replacing Raw Manure

Apply at 40kg-50kgs to replace each cubic metre of raw manure.

Cover Crops

Apply at 100kg-300kgs per hectare.

Choice of product will depend on your soil fertility status - please contact us with queries.

Available in Pellet Form in 40kg bags, 500kg bags
